

## I'm A Little Rocket Ship

Cracker

I'm a little rocket ship  
I'll take you on a little trip  
We'll leave this planet far behind

I'm a little tired of it  
And you're a little weary  
I can tell, yeah yeah

Well, I'm a little rocket ship  
And you are Queen Andromeda  
Of all the stars, those with names  
And those in clusters  
You are on account of me  
Infinite, so can't you see that  
I'm a little rocket ship

I'm a little rocket ship  
I'll take you on a little trip  
And leave this planet far behind

Do you suppose that they've been here?  
I don't know, but I've been there  
Do you want to come along?

I'm a little rocket ship and  
You are crowned the Femme Magnificent  
Of the stars, those with names  
And those in dingy drag bars  
They plead with you not to go  
To Pleiades or Scorpio and  
I'm a little rocket ship
