

## Someday

Cracker

Someday well I'll get it right  
Yeah one day I'll get it right  
Someday well I'll get it right  
Yeah one day I'll get it right

And I had a dream last night  
That I was feeling barely human  
So save me a place in your parking lot  
And save me a place beside you  
When you lie down to sleep at night  
Someday I'll get it right

Someday well I'll get it right  
Yeah one day I'll get it right  
Someday well I'll get it right  
Yeah one day I'll get it right

And if you see the dark clouds  
Gathering out on the horizon  
Don't be alarmed  
They're just there for me  
Just save me a place beside you  
When you lie down to sleep at night  
Someday I'll get it right

Someday well I'll get it right  
Yeah one day I'll get it right  
Someday well I'll get it right  
Yeah one day I'll get it right  
Yeah one day I'll get it right
