

Good Things Come To Those Who Drink

Craig Campbell

If your work week has been too long, hang on
We gon' get down and tie one on
If your patience is wearing thin, my friend
Well then, why don't you come on in

So we can grip it, rip it, tip it, sip it
Let it do its thing

It puts a smile on your face
Makes you laugh a little more
Makes your worry slip away
Gets your boots out on the dance floor
What's wrong with your world
Ain't as bad as you think 'cause
Good things come to those who drink, yeah

So if you need to blow off steam like me you'll see
A few drinks will set you free
And if you wanna go all night, that's fine
'Cause I'm in the same state of mind

So make it a double
Let's get into some trouble
I ain't got time to waste

It puts a smile on your face
Make you laugh a little more
Makes your worry slip away
Gets your boots out on the dance floor
What's wrong with your world
Ain't as bad as you think 'cause
Good things come to those who drink, come on

So grip it, rip it, tip it, sip it
Come on, do your thing

It puts a smile on your face
Makes you laugh a little more
Makes your worry slip away
Gets your boots out on the dance floor
What's wrong with your world
Ain't as bad as you think 'cause
Good things come to those who drink

Yeah, it puts a smile on your face
Makes you laugh a little more
Makes your worry slip away
Gets your boots out on the dance floor
What's wrong with your world
Ain't as bad as you think 'cause
Good things come to those who drink, I said
Good things come to those who drink
