

# Night Like Last Night

Craig Campbell

I bet we sang a hundred songs like we were on the radio  
And I bet we watched a million stars laughing hard and kissing  
slow  
We stayed up till the sun came up but it ain't enough

I could take another night like last night  
You were wearing that moonlight and wearing it right  
Girl I'd love another shot of whatever you got  
I could take another night like last night

Everything you did everything you said was perfect you were something else  
You made me feel like this feels right like a high I've never felt  
And I know it hasn't been that long but it's been too long

I could take another night like last night  
You were wearing that moonlight and wearing it right  
Girl I'd love another shot of whatever you got  
I could take another night like last night

You're all I've thought about all day  
Last night's just skipping on replay  
Let's slip off get lost baby whatcha say

I could take another night

I could take another night like last night  
You were wearing that moonlight and wearing it right  
Girl I'd love another shot of whatever you got  
I could take another night like last night

Everything you did everything you said was perfect  
Last night
