

# Summer Soundtrack

Craig Campbell

Rhythm of a gravel road  
Our song on the radio  
Bare feet hanging out the window  
July blowing through your toes  
On our way to anywhere alone

Riding on a summer night  
Fireworks lightin' up the sky  
Every star is shining on you  
A kiss is like a guitar strum  
T-shirt beating like a drum  
Every rhythm right in the groove  
World is spinning to the sound of that  
Summer soundtrack  
Summer soundtrack

Moonlight shadow dance  
Firefly and cricket band  
On the hood sipping on a cold beer  
Cool breeze, turning down the night air  
Don't wanna be anywhere but here

Riding on a summer night  
Fireworks lightin' up the sky  
Every star is shining on you  
A kiss is like a guitar strum  
T-shirt beating like a drum  
Every rhythm right in the groove  
World is spinning to the sound of that  
Summer soundtrack

Baby get as close as you can get  
This is how I wanna remember it

Riding on a summer night  
Every star is shining on you  
A kiss is like a guitar strum  
T-shirt beating like a drum  
Every rhythm right in the groove  
World is spinning to the sound of that  
Summer soundtrack
