

That's What A Song'll Do

Craig Campbell

Me and my baby we were parked down a country road
Radio playing she started singin' stuck on you
She leaned over put her pretty little head on my shoulder
We forgot all about that fight we had started all over

That's what a song'll do
It'll turn you around speak right to you
Make you laugh and cry and fill your heart up to
That's what a song'll do

I was sittin' in the kitchen down at mama's house
Havin' one of those days feelin' like nothing's gonna go my way
She was hummin' along to a feel good song
Eased my mind all of a sudden wasn't nothin' wrong

That's what a song'll do
It'll turn you around speak right to you
Make you laugh and cry and fill your heart up to
That's what a song'll do

Last Sunday I was sittin' in a front row pew
Miss Emma started playin' choir started singin' old rugged cros
s
Oh I heard it like I never had heard it before
I bowed my head, raised my hands and praised the Lord

That's what a song'll do
It'll turn you around speak right to you
Make you laugh and cry and fill your heart up to
That's what a song
That's what a song'll do
