

Tractor Songs

Craig Campbell

Girl, you're knocking' the restless off my boots
Mama said it couldn't be done, what do you know?
Got the cowboy in me train' my ropes for roots
I just wanna plant something and watch it grow

Girl, you make me wanna buy the farm
Eighty acres and a big red barn
A little tin roof house
With a wrap around and the daisies
So I could wave at you and our babies
While I work the land
Gettin' that real deal farmer's tan
Livin' that green John Deere dream
Every dusk 'til dawn
With the radio on
Singing you tractor songs

Baby, I don't even know what we'll have rows of
Maybe corn, maybe cotton, maybe soy bean
All I know is all I need is your love
And the Lord to take care of the sun and the rain

Girl, you make me wanna buy the farm
Eighty acres and a big red barn
A little tin roof house
With a wrap around and the daisies
So I could wave at you and our babies
While I work the land
Gettin' that real deal farmer's tan
Livin' that green John Deere dream
Every dusk 'til dawn
With the radio on
Singing you tractor songs

Kickin' up dust up and down them fields
Baby, don't it turn you on?
Take you on a sunset ride any night you want

Girl, you make me wanna buy the farm
Eighty acres and a big red barn
A little tin roof house
With a wrap around and the daisies
So I could wave at you and our babies
While I work the land
Gettin' that real deal farmer's tan
Livin' that green John Deere dream
Every dusk 'til dawn
With the radio on
Singing you tractor songs

You like them songs, don't you, baby?
