

# Upstairs

Craig Campbell

You traced your lips in ruby red  
That little perfume on your neck  
Slipped on that black dress  
You know I can't resist  
Low cut high heels  
All I know is the way I feel  
And you can blame yourself for this

I was gonna take you out  
I was gonna take you down town  
I was gonna spend all night doing it right  
But look at what you done now  
I was gonna take my time  
I was gonna buy the wine  
And let you off the ground  
Oh now I don't wanna take you anywhere  
I don't wanna take you anywhere  
I don't wanna take you anywhere  
But upstairs

Now don't look at me like it ain't fair  
You're the one who went and let down your hair  
Girl I'm going crazy and all that's on my mind  
Is your smile your kiss we're in a moment I don't wanna miss  
So let's stay in tonight

I was gonna take you out  
I was gonna take you down town  
I was gonna spend all night doing it right  
But look at what you done now  
I was gonna take my time  
I was gonna buy the wine  
And let you off the ground  
Oh now I don't wanna take you anywhere  
I don't wanna take you anywhere  
I don't wanna take you anywhere  
But upstairs

Yeah I was gonna take you out  
I was gonna take you down town  
I was gonna spend all night doing it right  
But look at what you done now  
I was gonna take my time  
I was gonna buy the wine  
And let you off the ground  
Oh now I don't wanna take you anywhere  
I don't wanna take you anywhere  
I don't wanna take you anywhere  
But upstairs  
I don't wanna take you anywhere  
I don't wanna take you anywhere  
I don't wanna take you anywhere  
But upstairs
