

# When She Grows Up

Craig Campbell

When I was young I dreamed of being famous  
But through the years I left that dream behind  
It's funny how things in life can change us  
Like when I see her little hand in mine

I still want to move mountains  
I still wanna change the world  
And show her no matter what happens  
She's my little girl  
And love lasts forever  
And she'll never  
Get too big for Daddy's hugs  
What she sees in me  
That's what I wanna be  
When she grows up

I can't fly even if I try forever  
But in her eyes I am Superman  
Cause just one kiss could make a skinned up knee all  
better  
And she smiles and says you're my hero, Dad

I still want to move mountains  
I still wanna change the world  
And show her no matter what happens  
She's my little girl  
And love lasts forever  
And she'll never  
Get too big for Daddy's hugs  
What she sees in me  
That's what I wanna be  
When she grows up, oh

I still want to move mountains  
I still wanna change the world  
And show her no matter what happens  
She's my little girl  
And love lasts forever  
She'll never  
Get too big for Daddy's hugs  
What she sees in me  
That's what I wanna be  
Oh, what she sees in me  
That's what I wanna be  
When she grows up  
When she grows up
