

# Cold

Craig David

Cold hearted and deranged like a killer chick from a movie  
I ain't saying no names  
But hold up, let me explain  
This girl's an instant lover  
Like a hit of MDMA  
We tie the match, feel dizzy  
Then tell your man that you've changed  
Cold hearted and deranged like a killer chick from a movie  
I ain't saying no names  
But hold up, let me explain  
This girl's an instant lover  
Like a hit of MDMA  
We tie the match, feel dizzy  
Then tell your man that you've changed  
She's cold

Cold cold cold  
She's cold  
Cold cold cold  
She's cold  
Cold cold cold  
So cold

Started with anonymous kiss  
And then I kissed on the lips  
I remember how I couldn't resist  
She was standing like a bubble in press  
But after that I pray for her  
Even if I said I wouldn't give in  
She had me in a hazy blur  
I was hoping she was conceiver

She was like a broken record  
Let's just the say the magical play  
When it comes to being in control  
Then she's used to get it her way  
She ain't afraid to crush you  
Even if you get in her way  
This girl's so determined  
Only one thing left to say

She's cold  
Cold cold cold  
She's cold  
Cold cold cold  
She's cold  
Cold cold cold  
So cold

I was sitting on top of the world  
Spending money like you know how it is  
I guess that little was real  
I was high I was hoping to peel  
Just give me the spotlight  
Then mama stays on high fierce  
She proceeded to call me names  
So then till find them

She was like a broken record  
Let's just say the magical play  
When it comes to being in control  
Then she's used to get it her way  
She ain't afraid to crush you  
Even if you get in her way  
This girl's so determined  
Only one thing left to say

She's cold  
Cold cold cold  
She's cold  
Cold cold cold  
She's cold  
Cold cold cold  
So cold

Yeah Cold hearted and deranged  
Told you mama don't play  
You got something you worship  
If your friend was switching up games  
Before you know you're naked  
We're standing now in the game  
We hope that you won't hit that  
But so you were dreaming

She's cold  
Cold cold cold  
She's cold  
Cold cold cold  
She's cold  
Cold cold cold  
So cold
