

Going On

Craig David

You don't have to be that way with me
You don't have to say those things to me
You know that I'll be that one for you, yeah
You know that I'll change my life for you, oh, yeah, yeah

As long as you know that wherever I go
I'll fight for us like a soldier, keepin' us strong like a boulder
Keep you in my mind, thinkin' all of the time
It took this pain to mold us, don't panic, girl, keep your composure

How I feel about you, never get it mistaken
How I feel about you, look, girl, all the risks we've been takin'
How I feel about you, we gotta stay strong to make it
How I feel about you

Yeah, I'm goin' on with you
Yeah, I'm goin' on with you
Yeah, I'm goin' on with you
I'm goin' on with you
Yeah, I'm goin' on with you
Yeah, I'm goin' on with you
Yeah, I'm goin' on with you
I'm goin' on with you

Tryna be perfect
We still got work left to, girl, I'm just bein' honest
I got everybody tellin' me that I struck gold, yeah, I know
You got that thing, I know that, yeah
I got it good, I know that, yeah
Won't let this good ting go

As long as you know that wherever I go
I'll fight for us like a soldier, keepin' us strong like a boulder
Keep you in my mind, thinkin' all of the time
It took this pain to mold us, don't panic, girl, keep your composure

How I feel about you, never get it mistaken
How I feel about you, look, girl, all the risks we've been takin'
How I feel about you, we gotta stay strong to make it
How I feel about you

Yeah, I'm goin' on with you
Yeah, I'm goin' on with you
Yeah, I'm goin' on with you
I'm goin' on with you
Yeah, I'm goin' on with you
Yeah, I'm goin' on with you
Yeah, I'm goin' on with you
I'm goin' on with you

You got the things that I love
You got the things that I love, yeah
Let me slow it down so we can fuck
You got the things that I love
You got the things that I love, yeah
'Cause it's only me and you tonight

How I feel about you, never get it mistaken
How I feel about you, look, girl, all the risks we've been takin'
How I feel about you, we gotta stay strong to make it
How I feel about you
How I feel about you, never get it mistaken
How I feel about you, look, girl, all the risks we've been takin'
How I feel about you, we gotta stay strong to make it
How I feel about you

Yeah, I'm goin' on with you
Yeah, I'm goin' on with you
Yeah, I'm goin' on with you
I'm goin' on with you
Yeah, I'm goin' on with you
Yeah, I'm goin' on with you
Yeah, I'm goin' on with you
I'm goin' on with you
