

# Meant to Be

Craig David

Now you know what love is  
Pulling up in that whip  
Now you know what love is  
Pulling up in that whip

Listen  
See, I know this girl from way back (Way back)  
I'm talking way back City College days (College days)  
We had a thing, call it a throw back (throw back)  
She loved dating bad boys, yeah, she played the game  
Now fast forward, yeah, we're talking ten years later  
Couple lovers, couple players, couple breakups  
Now we always said we're better off together  
(It's funny how we met again)

This could be different (Oh, we both know that)  
This could be different (Oh, ready to show it)  
This could be different (Oh), you better know  
It ain't gon' be the same again

You know those past relationships, some of 'em go bad  
(Some of 'em go bad)  
But you know this is different, you already know that  
(You already know that)  
You don't have to pretend, you don't have to hold back  
(You don't have to hold back)  
It's just meant to be, it's just meant to be (Yeah)  
You know when you love someone, you love them so bad  
(You love them so bad)  
You ain't never felt it, never felt it like that  
(Never felt it like that)  
'Cause every time we're making love just as you lay back  
(Just as you lay back)  
It's just meant to be, it's just meant to be

You know I'm a believer that if it's meant to be, there's a right time  
You know when all the stars align, the universe giving that co-sign  
Guess that we've both been waiting for this special moment for our whole liv  
es  
(That's why it's funny how we met again)

This could be different (Oh, we both know that)  
This could be different (oh, ready to show it)  
This could be different (Oh), you better know  
It ain't gon' be the same again

You know those past relationships, some of 'em go bad  
(Some of 'em go bad)  
But you know this is different, you already know that  
(You already know that)  
You don't have to pretend, you don't have to hold back

(You don't have to hold back)  
It's just meant to be, it's just meant to be (Yeah)  
You know when you love someone, you love them so bad  
(You love them so bad)  
You ain't never felt it, never felt it like that  
(Never felt it like that)  
'Cause every time we're making love just as you lay back  
(Just as you lay back)  
It's just meant to be, it's just meant to be  
You'll be saying, ooh

Now you know what love is, yeah  
Never felt it like this, yeah  
Pulling up in that whip, yeah  
Call me up short notice, yeah  
Now you know what love is, yeah  
Never felt it like this, yeah  
Pulling up in that whip, yeah  
Pulling up in that

You know those past relationships, some of 'em go bad  
(Some of 'em go bad)  
But you know this is different, you already know that  
(You already know that)  
You don't have to pretend, you don't have to hold back  
(You don't have to hold back)  
It's just meant to be, it's just meant to be (Yeah, oh)  
You know when you love someone, you love them so bad (Baby)  
You ain't never felt it, never felt it like that  
(You ain't never felt it like this now)  
'Cause every time we're making love just as you lay back  
It's just meant to be, it's just meant to be  
You know when you love someone, you love them so bad  
(You love them so bad)  
You ain't never felt it, never felt it like that  
(You ain't never felt it like that)  
'Cause every time we're making love just as you lay back (Oh yeah)  
It's just meant to be, it's just meant to be (Yeah)

Now you know what love is  
Pulling up in that whip  
Now you know what love is
