

Somebody Like Me

Craig David

(AJ Tracey, I see you right there)

I was walking through the club like a soldier
Had to pull the brakes when I saw her
I could see the smile on her face
She was there whining away
I saw her next to some guy, that's a minor
Cause the only thing I know is I like her
Look like she want somebody else on her rider
But she don't know she playing with fire

It's goin' down, goin' down
Baby you don't even know what you started
Touchin' down, touchin' down
Cause I already know what you want

You already know
We ain't gotta talk
You ain't felt anything like this before
No way (no way)
You need somebody like me, somebody like me
You need somebody like me, somebody like me
Somebody like me, you need somebody like me
Somebody like
You already know
We ain't gotta talk
You ain't felt anything like this before
No way (no way)
You need somebody like

I just had a straight henny and it's kickin'
Bro that ain't a Rolley cause it's tickin'
Bare gyal, I'm the starboy so I'm pickin'
And this girls strong like the steamed veggies and the chicken
Livin' in the hills, that's the vision
But at the moment I got London in my vision
I see the space then I make an incision
I got love for brothers rockin'
I ain't bothered if you isn't
Pretty gyal got my heart skippin'
Pendant on me water so I'm drippin'
Fiending for the money man I'm itchin'
Wrist whippin' I don't need a cooker in the kitchen
Nike with the Fendi man I'm swishin'
Tryna stop the powers, man are wishin'
Them man are out droppin' dimes, stop snitchin'
And I'm doing foreign, doing skrr skrr so I'm switchin'

You already know
We ain't gotta talk
You ain't felt anything like this before
No way (no way)
You need somebody like me, somebody like me
You need somebody like me, somebody like me
Somebody like me, you need somebody like me
Somebody like
You already know

We ain't gotta talk
You ain't felt anything like this before
No way (no way)

Come over, get to know me (really get to know me)
I can see it in your eyes
You wanna get to know me (you wanna get to know me)
How 'bout I meet you inside?
We can dip out of this party (oh yeah)
Come jump in my ride
And you can get to know me (you can really get to know me)

You already know (you know)
We ain't gotta talk (no we don't, no we don't)
You ain't felt anything like this before (never ever)
No way (no way)
You need somebody like me, somebody like me
You need somebody like me, somebody like me
Somebody like me, you need somebody like me
Somebody like
You already know
We ain't gotta talk
You ain't felt anything like this before
No way
You need somebody like
