

Talk to Me

Craig David

Baby you caught my eye
Attitude just what I like
Sip it slow
Henny on ice
The way you move
Got me hypnotized

I wanna know your name
Where your from
Wondering if we could speak
Speaking tongue
How you feelin' in the dreams
How you at alone
I wanna take you
I wanna take you down

Baby put my hands on your body
(Hands on your body girl)
I just wanna put love on top of gravity
Feelin' little good that's keep rocking
You know how to love me, love me, love me, love me, love me, love me right
Let your body

Talk to me, talk to me, talk to me baby
Talk to me, talk to me, talk to me baby

Just lay back
Dim the lights
Just us two
Be as loud as you like
Kiss me now
Take your time
We'll make our own on paradise
Feeling on your frame
Thick as fuck
Got you calling out my name
That's what's up
Swimming on another wave
When we touch
I wanna take you
I wanna take you down

Baby put my hands on your body
(Hands on your body girl)
I just wanna put love on top of gravity
Feelin' little good that's keep rocking
You know how to love me, love me, love me, love me, love me, love me right
Let your body

Talk to me, talk to me, talk to me baby
Talk to me, talk to me, talk to me
Talk to me, talk to me, talk to me baby (oh baby)
Talk to me, talk to me, talk to me...

Tonight don't you talk to talk to me [?] [x2]

Baby put my hands on your body

(Hand on your body girl)
I just wanna put love on top of gravity
Feelin' little good that's keep rocking
You know how to love me, love me, love me, love me, love me, love me right
Let your body

Talk to me, talk to me, talk to me baby
Talk to me, talk to me, talk to me
Talk to me, talk to me, talk to me baby (oh baby)
Talk to me, talk to me, talk to me...

(Baby put my hands on your body)
(Talk to me, talk to me, talk to me...)
(Feelin' little good that's keep rocking)
(Talk to me, talk to me, talk to me...)
...
