

Wake Up

You better wake up (Ooh yeah)
Before you lay your head on that pillow
The pillow, yeah
You better wake- (Ooh yeah)
Before we both get stuck in the middle
No no no, yeah

So, are you sleeping?
Are you sleeping?
You better wake up
You better wake up, oh

So, are you sleeping?
Are you sleeping?
You better wake up
You better wake up, oh

La La La La La La La
La La La La La La La
You better wake
La La La La La La La
La La La La La La La
You better wake up, oh

La La La La La La La
La La La La La La La
You better wake
La La La La La La La
La La La La La La La
You better wake up, oh

You better wake up
Baby don't go to sleep
You better wake up
Better face reality

You better wake
Up to the fact that
You're turning your back
On the best thing you ever had

And I want you to know that...

So, are you sleeping?
Are you sleeping?
You better wake up
You better wake up, oh

So, are you sleeping?
Are you sleeping?
You better wake up
You better wake up, oh

La La La La La La La
La La La La La La La
You better wake
La La La La La La La
La La La La La La La
You better wake up, oh

La La La La La La La
La La La La La La La
You better wake
La La La La La La La
La La La La La La La
You better wake up, oh

Out the blocks to races
But in this race you hardly can pace this
Know we both played the game when we dated
But at this rate, you're likely to waste this

Tryna hold back
Tryna play it cool like so bad
When deep down you know, just own that
You caught feelings like I was a throwback

Roll pon a riddim
Roll pon a riddim – know
I know you've been hurt before
Gotta let it go

I told you a million times
When you got involved
That I ain't really tryna be
Like them other bro's – nah

I'm already steppin' up
On a big man flow
Dem boys are running outta luck
And if we're being honest, girl
That's where you're getting stuck

So before you fall asleep
You'd better wake up, so...

So, are you sleeping?
Are you sleeping?
You better wake up
You better wake up, oh

So, are you sleeping?
Are you sleeping?
You better wake up
You better wake up, oh

La La La La La La La
La La La La La La La
You better wake
La La La La La La La
La La La La La La La
You better wake up

La La La La La La La
La La La La La La La

You better wake
La La La La La La La
La La La La La La La
You better wake up, oh

You better wake up, baby don't go to sleep
You better wake up, better face reality
You better wake up
You better wake up
Up to the fact that
You better wake
You're turning your back
You better wake up
On the best thing you ever had
You better wake
You better wake up, no
