

Your Way

Craig David

Your, your, your, your, your, your way
No, no, no, no, no, no way

When you find a girl looking so fit
The tyga girl that's moving with no motive
Find yourself in a argument, you have to solve it
It's how it goes, it's how it goes
My mama told me
There's no rush
I know you really like her but is that enough
Are you prepared to really hold her down
'Cause there's way more to fallin' in love, yeah

Today, she told that it's over
She told me that she had enough, enough, enough, enough
I said baby we can solve it
But she ain't really tryna talk, all this hangin' up
You blaming me for travelling at different time zones
Is this really love?
Next day I'm on your mind, you wanna take it all back, oh no

You say you want my heart but it's like you want it
Your, your, your, your, your, your way
I say I wanna talk but then you be sayin'
No, no, no, no, no, no way
See, I don't wanna cause a commotion
I know it's easy, you're just going through the motions
But when it comes to me and you girl, it's important
More than just having your way

I remember those days when
Our chemistry was amazing
You and me were looking forward to the weekend
A little fun, couple drinks that was always the way
So, I took her Benihana
We sit down, we find a quiet corner
Had real good time, wasn't any drama, drama
Quality time with each other

Today, she told me that it's over
She told me that she had enough, enough, enough, enough
I said baby we can solve it
But she ain't really tryna talk, all this hanging up
You blamin' me for travelling to different time zones
Is this really love?
Next day, I'm on your mind, you wanna take it all back
No, no

You say you want my heart but it's like you want it
Your, your, your, your, your, your way
I say I wanna talk but then you be sayin'
No, no, no, no, no, no way
See, I don't wanna cause a commotion
I know it's easy, you're just going through the motions
But when it comes to me and you girl, it's important
More than just having your way

Oh gosh
You give me trouble, but I love you so much
Stubborn but I'm working on us
We move forward but your foot still on the clutch
One minute you and me, we fuss n' fighting
'Cause every day it's like you change your mind

You say you want my heart but it's like you want it
Your, your, your, your, your, your way
I say I wanna talk but then you be sayin'
No, no, no, no, no, no way
See, I don't wanna cause a commotion
I know it's easy, you're just going through the motions
But when it comes to me and you girl, it's important
More than just having your way

Oh, your way
I said it's more than just having your way
I said it's more than just having your way
