

Sit Back & Relax

Craig Mack

What I've got for store in you
Is all you need & more
(Non stop rockin is the brand new sound)
Sit back and relax and just enjoy yourself
Enjoy yourself, tonight
(Non stop rockin is the fat funk flav)

Now get down, who am I? The Man
Hot like the desert sand of Afghanistan
Bust a plan, the whole world will now listen
MC's take a break I'd make a sign say gone fishin
And now that I'm into position
Operation get down is the new mission
Guaranteed to crush you and eat competition
Illest ever on the mic that's why a Benz is what I sit in
This style's forbidden so say good riddin'
It's that rap that ya diddin' MC's you must be kiddin'
I plan on winnin, as the record keeps spinnin'
Dipped down and fly linen, here's the home run I'm hittin...

What I've got for store in you
Is all you need & more
(Non stop rockin is the brand new sound)
Sit back and relax and just enjoy yourself
Enjoy yourself, tonight
(Non stop rockin is the fat funk flav)

My rhymes are dope as Reggie Miller on the court, sport
You tried to steal rap and you got caught
On second thought let him go
And watch my style beat em down
So put him in a casket and place him in the ground
Honey dip, check the way I bust deez niggas shit
With rhymes dat rip after dat we can take a trip
To the coast, it's the host of a brand new day
Standing post it's the most smooth as oil of olay
All you stiff MC's need grab Bengay
Boyee, I'll take you out and the style you portray
About to set sail so anchors away
It only takes one MC and I'm here to stay

What I've got for store in you
Is all you need & more
(Non stop rockin is the brand new sound)
Sit back and relax and just enjoy yourself
Enjoy yourself, tonight
(Non stop rockin is the fat funk flav)

Can you imagine a world without me rapping
But as long as I'm alive a yo that shit would never happen
I twist em up like a breadstick, shit's thick
Cause I'm known to Get Down and dig into your ass quick
Don't it sound slick, you make me laugh until my side split
I rock the microphone and make the rhyme fit
No matter how it get, smoothed out or rougher
Craig Mack's on the mic to make MC's Suffer
Complete control of the crowd even world kings bowed

Back in the house and you're not allowed
Say it proud
The Mack will last here for days
So bust my new style, and the rhymes that you praise...
