Bring it on boy I love it

MC's try but there's none above it

I shake the concrete hard when I walk

Fuck the smooth talk, peace to all my niggas from New York

I'm erect to wreck, all MC's hit the deck, mic check

The bitch ass niggas get no respect

Loud as thunder, I rock the mic while you wonder

Your only blunder, brutha is my foot that you're under

Fortified; like a big box of bran flakes

Got the whole world lovin' what this man makes

Command space so all yallll back up

Rhymes are live'r, and I'mma grab the mic and erupt

It ain't fair, MC's you ain't got a prayer

It's the baddest man alive and you can shop and compare

I put the funk in your ear drum

And if you think you nice then shit, come and get some...

Cause they know I give em more show than Apollo

MC's that second guessed it

Are now lying in the ground with suits double-

breasted, finessed it, who the best at, rippin' them apart

Don't start

I'll hang your ass like art

These rhymes I push

I push for the ave

Dip and dab in vocab, bless the mic I have

'Cause my Flav cover the globe like CNN

MC's are heard one time, and ain't heard again

Coming live from New York

This sport is real and I

Know you're hungry so enjoy the meal

Crack a home run

While you plan to steal, but like a dummy you forgot

The Mack play center field

Out, look at you my rhymes cause pain

Bust my style cause my rhymes gonna reign...

Now I'm hard (like what)

The rock of Gibraltar, honeys on my lap with the crystal mimosa, I'll autograph your poster

Turn it into pulp fiction like my name was John Travolta

'Cause into my holsta goes my mic

After blowing off the smoke on the rhymes I write

Parasite, my fahrenheit's 1000 degrees

Bust in ya ass like Segal when he's under siege

Fear what do damage in ya area

Black bull terrier cold as Siberia, who hearin' ya

Not me, I run a rap type monopoly, proply on foes that be

So while I'm coolin' on the shore of Tahiti

You'll be sellin crack next to walls with grafitti, believe me

You know my name
