

Nowhere Without You

Craig Morgan

You are the flame that burned me down.
You are the turn that brought me around.
I am the difference your touch made.
I want to thank you, girl, for loving me like you do.
So glad you found me cause I was nowhere without you.

You are the answer to prayers I've prayed.
My life, the silent song your kiss please.
You are the guiding star that leads me back home,
and I want to thank you, girl, for loving me like you do.
So glad you found me when I was nowhere without you.

Nowhere, no one, no way out,
a heart full of sorrow and a head full of doubt.
You reached into my darkness.
You pulled me through.
I may get lost, and I may stumble, but I know that it's true.
So glad you found me 'cause I was nowhere without you.
Oh, I was nowhere without you.
