

Let It Ride (Let It Roll)

Craig Wayne Boyd

Left arm out the window
Other side throwing it in drive
The rear-view's reading all the trouble I've been seeing
But I'm leaving those worries behind

Sunrise on the horizon
A fresh wind pushing my back
Pegged out on the dashboard know if I'm a going
That I'll be going fast

So, let it ride, let it roll
Pay no mind to the swerves and the curves
And all I can't control
Come rain or shine I'm going with the flow
Just let it ride, let it roll

A few hundred miles behind me
A couple thousand more to go
Switchbacks of gravel just keep it on travel
'Til I find that pot of gold

So, let it ride, let it roll
Pay no mind to the swerves and the curves
And all I can't control
Come rain or shine I'm going with the flow
Just let it ride, let it roll

Oh, let it roll

Left arm out the window
Other side throwing it in drive
The rear-view's reading all the trouble I've been seeing
But I'm leaving those worries behind

Let it ride, let it roll
Pay no mind to the swerves and the curves
And all I can't control
Come rain or shine I'm going with the flow
Just let it ride, let it roll

Come on and let it ride, let it roll
Just let it ride, let it roll

Let it roll
