

## Drowning

Craig Xen

You can find me I'll be drowning  
Right where you left me down in my misery  
You can find me I'll be drowning  
Right where you left me down in my misery  
Isn't he the one that you want?  
Isn't he the reason that you left me?  
Find me I'll be drowning  
Right where you left me down in my misery  
'Cause isn't he the reason you left me?  
To drown in my misery  
Find me I'll be drowning  
Right where you left me down in my misery  
Isn't he the one that you want?  
Isn't he the reason that you left me?

Find me I'll be drowning  
Right where you left me down in my misery
