

Sitting in my bedroom wondering  
How I ended up incompetent  
How'd I get it to the point  
Where ion even wanna go outside  
To a world I can't function in  
Ion even wanna speak  
Ion wanna see anybody  
So I don't re-ply  
Just leave me to be  
Leave me to bleed out  
Just let me die

I could have it all  
You could hand me the world  
But it's never gonna fill my void  
Do this for the girls and the boys  
That can't take it anymore  
Then they hear my voice  
Suddenly they ain't alone  
And they feel at home  
When my tone  
Hit they headphones  
I ain't gon be here long  
So enjoy me till I'm gone  
Make that our choice

And if I had a chance  
I would never change a thing  
I went through with in this life  
Everybody that had fell victim  
To sins I committed  
That had ruined they lives  
I could never feel the remorse  
Cause the pain I inflicted on em  
Felt so good  
They say that I'm evil  
I disagree with their beliefs  
Cause I'm misunderstood

Sitting in my bedroom wondering  
How I ended up incompetent  
How'd I get it to the point  
Where ion even wanna go outside  
To a world I can't function in  
Ion even wanna speak  
Ion wanna see anybody  
So I don't re-ply  
Just leave me to be  
Leave me to bleed out  
Just let me die
