

Are You Gone?

Cranes

are you gone
did you just fly away
the sun is gone away
and I can't seem to find my way

are you gone
just like in dreams you said
and dreams should never die
and I just want to hide away

are you gone
did you just fly away
the sun is gone away
and I can't seem to find my way

are you gone
just like in dreams you said
and dreams should never die
and I just want to hide away
