

## Vanishing Point

Cranes

Look how all the moonlight shines  
I watch you race through space and time  
'Cause I've been seated here a while  
Just gazing closely in your eyes

I check your frequencies again  
No, don't be vanishing  
I don't think i could bear it, no, no  
No, no  
If you were to disappear

I can't see you  
I can't see you  
Dark in here  
Cannot see you  
I can't see you  
I can't see you
