

## Good Side

Crash Adams

When you walk into the room  
Make diamonds jealous, sh-sh-shinin' like that, yeah  
You're breaking every rule  
I take the consequences after the fact (Ha, ha)

I was running my own clock (My own clock)  
I was loving 'til it stopped ('Til it stopped)  
I was nothing but cigar, smoke and pain  
With tequila to blame 'til you

Until you caught me on my good side  
In that good light  
I swear I wasn't like that  
No, oh-oh, no, oh (Ah)  
Until I got you on my good side  
Brought that good light  
I swear I wasn't like that  
No, oh-oh, no, oh (Ah)  
Good side

When it comes to you  
We only speakin', speakin', speakin' in tongues (In tongues)  
I could be walking on the moon  
But you'd keep me sweating, sweating just like the sun (Ha, ha)

I was running my own clock (My own clock)  
I was loving 'til it stopped ('Til it stopped)  
I was nothing but cigar, smoke and pain  
With tequila to blame 'til you

Until you caught me on my good side  
In that good light  
I swear I wasn't like that  
No, oh-oh, no, oh (Ah)  
Until I got you on my good side  
Brought that good light  
I swear I wasn't like that  
No, oh-oh, no, oh (Ah)  
Good side

Good side  
Good side

(Ooh-ooh) I swear you got no good side  
(Ooh-ooh) I swear you don't need good light  
(Ooh-ooh) 'Cause I'm looking at both sides  
And you look better every single time

Good side  
In that good light  
I swear I wasn't like that  
No, oh-oh, no, oh (Ah)  
Until I got you on my good side  
Brought that good light  
I swear I wasn't like that  
No, oh-oh, no, oh (Ah)  
Good side

Ooh-ooh, ooh-ooh  
Good side  
Ooh-ooh, ooh-ooh  
Good side
