

Karaoke

Crash Adams

She said the night is young
And so are we
She took my hand, she said
I know a place, just follow me

So what's your favourite song?
Oh yeah, I know that one
It's even better, even bigger
When the lights go off

I'll take you there
Let me, let me
Take you there
I'll take you there
Take you – hey!

Let's do karaoke on the westside
I wanna hit every note with you (I do)
You and me, yeah, we could do it all night
So baby, what you think?
You and me could sing it
Sing it

All night (alright)
All night (alright)
All night (alright)
Let's do karaoke
Do it all night (alright)
All night (alright)
All night (alright)
Let's do karaoke, baby

Hitting every note
We could do it high
We could do it low, low, low
Got you on the mic
Underneath the lights
Putting on a show, show, show

I swear your body's a melody
That I could listen to on repeat, yeah
We could do it fast, we could do it slow
You know I like it both, both, both

Eenie meenie minie mo
Ain't a song that she don't know
Grab the mic and here we go
Kesha, Doja, Billie – woah!

Let's do karaoke on the westside
I wanna hit every note with you (I do)
You and me, yeah, we could do it all night
So baby, what you think?
You and me could sing it
Sing it

All night (alright)

All night (alright)
All night (alright)
Let's do karaoke
Do it all night (alright)
All night (alright)
All night (alright)
Let's do karaoke, baby

Come on, baby
Let me see that high note
I'll take you there
Take you - hey!

Let's do karaoke on the westside
I wanna hit every note with you (I do)
You and me, yeah, we could do it all night
So baby, what you think?
You and me could sing it
Sing it

All night (alright)
All night (alright)
All night (alright)
Let's do karaoke
Do it all night (alright)
All night (alright)
All night (alright)
Let's do karaoke, baby
