

Symphony

Crash Adams

Step to me, step to me
I know you're keeping time
I can read your mind
It goes right left, to the left of me
The more you keep my vibe
We can't fake it all night

Get it off, get it off, get it off
Oh, baby, I got you on the beat
Right here with me
Get it off, get it off, get it off
Oh baby, I got you onto me
But you're gonna see

My heartbreak symphony
Symmetry got you into me
Simply, our proximity
It's killing me
Cuts so differently, this symphony

Pick a room, pick a few
We can move, oh
Step right close to me
Now watch me slide
Some people feel that vibe
What if you never knew
That I'm doing more than I've received in all my life?
Leave you taken all night

Get it off, get it off, get it off
Oh, baby, I got you on the beat
Right here with me
Get it off
Get it off
Get it off oh baby
I got you on to me
You got a front row seat
To my

My heartbreak symphony
Symmetry got you into me
Simply, our proximity
It's killing me
Cuts so differently, this symphony
Oh, my heartbreak symphony
Symmetry got you into me
Simply, our proximity
It's killing me
Cuts so differently, this symphony
