

You used to be my enemy  
You used to make me sick  
You used to talk behind my back  
Yeah, it's a love/hate thing

Somehow you trick me with your magic  
You got me under your spell  
You're such an evil woman  
But you're hotter than hell

I always said that you were crazy, baby  
You always teased me with that same old dance  
When I was down you used to save me, baby  
You used to set my soul in trance

Come on and do that thing you do  
Come on and make my day  
You be the master in my life  
I'll be the slave

I always said that you were crazy, baby  
You always teased me with that same old dance  
When I was down you used to save me, baby  
You used to set my soul in trance

I see the beauty in your soul  
Not just a grinder on a pole  
You're such a clean machine  
Close to seventeen  
I think I'm on forbidden soil

You shake your hips  
Crack your whip  
Play me 'til I'm paralyzed  
You see right through my fake facade  
My fragile heart is traumatized

I always said that you were crazy, baby  
You always teased me with that same old dance  
When I was down you used to save me, baby  
You used to set my soul in trance  
Set my soul in trance

I always said that you were crazy, baby  
You always teased me with that same old dance  
Same old dance  
When I was down you used to save me, baby  
You used to set my soul in trance  
Set my soul in trance
