

I Can't Move On (Without You)

Crashdiet

I know it only hurts me more
But I really need you here
I know you don't feel like before
You've moved on but I'm still here

I feel that I have lost myself
So desperate it shows
I've given up my cries for help
In my heart a cold wind blows

You're the one who let me down, down, down
You're the one who broke the vow

I can't move on without you
So say I'm sorry, speak the truth
I can't move on without you
So help me to get over you

Confusing me with all your talk
Pretending that you care
Abusing me at other times
You've learned to use my fear

You're the one who let me down, down, down
You're the one who broke the vow

I can't move on without you
So say I'm sorry, speak the truth
I can't move on without you
So help me to get over you

I can't move on without you
So help me to get over you
I can't move on without you
So help me to get over you

So help me to get over you
