

# Liquid Jesus

Crashdiët

I remember the time that when I was young  
Preachers are telling but discover's on  
Really creap but selling wather in the wine  
Countin' day into the hallows wine  
All in all it seems okay, the things I felt is up to real You  
Heaven's knocking crashin' down  
Reality show the black in town are come

White wine leather to red wine  
White lie leather to red lie  
The crash stops time the others on by the way

R: And all I've got is Liquid Jesus  
There's nothin' fine he'll never live us  
I give my body to this Liquid Jesus  
And it's all I'll ever live, allrite!

I've got a trouble the pope is off the run  
Now into the all I'm like a motherfuckin' dumb  
Had an vison it's up into excess  
I calm down my machines came to the bulglary care  
All in all I came some to kill the things I felt is up to real You  
And the passion in this wine  
Wont go to the heaven but I'm beggin feel alive

White sings turning into the red sing  
The white rights leather into the black right  
Crowling town but I'm walking in my right

R: And all I've got is Liquid Jesus  
There's nothin' fine he'll never live us  
I give my body to this Liquid Jesus  
And it's all I'll ever live, okay!

And all I bothered is Liquid Jesus  
I know it's fine just to lead us  
But I gave my soul to the Liquid Jesus  
I gave my soul, yeah  
Coup my pain, no way

And all I've got is Liquid Jesus  
There's nothin' fine he'll never live us  
I give my body to this Liquid Jesus  
And it's all I'll ever live, okay!

And all I've got is Liquid Jesus  
There's nothin' fine he'll never live us  
I give my body to this Liquid Jesus  
And it's all I'll ever live, okay!
