

Out Of The Cold

Crashdiet

Gotta make a new way to go
I wanna do the right thing this time
It's official we've fucked for a long time
Long time

Wanna do all the wicked shows
I can't forget the places we've been to
I'll tell you we're gonna wreck this place
Once more

Don't wanna end this now,
Don't wanna break the vow

Out of the cold, waking the riot
We're back in the game louder
Out of the cold, into the fire
Reaching for the sky now

Gotta make a new way to go
I wanna do the right thing this time
It's official we've fucked for a long time
Long time

Wanna do all the wicked shows
I can't forget the places we've been to
I'll tell you we're gonna wreck this place
Once more

Don't wanna end this now,
Don't wanna break the vow

Out of the cold, waking the riot
We're back in the game louder
Out of the cold, into the fire
Reaching for the sky

Out of the cold, waking the riot
We're back in the game louder
Out of the cold, into the fire
Reaching for the sky now

Don't wanna end this now,
Don't wanna break the vow

Out of the cold, waking the riot
We're back in the game louder
Out of the cold, into the fire
Reaching for the sky

Out of the cold, waking the riot
We're back in the game louder
Out of the cold, into the fire
Reaching for the sky

Out of the cold, waking the riot
Out of the cold, into the fire
Out of the cold, waking the riot

Out of the cold, into the fire
Reaching for the sky now
