

Shine On

Crashdiet

Leave this world behind me
Nothin' that surprise me
We belong in the same old song tonight
Higher than the top line
Swirlin' like a mad man
You and I got too much time tonight

As we stay a little longer
And we feel the deadly hunger

And you want it all
Nothin' less and nothin' more
Want it all
Shine on
Shine on
Want it all
Nothin' less and nothin' more
Want it all
Shine on
Shine on

Blinded by the moonlight
Tryin' to make it alright
Blood and bones I'll bring it to the fight
Shine so bright it's madness
You and I could care less
Lust and praise gone different ways tonight

As we stay a little longer
And we feel the deadly hunger

And you want it all
Nothin' less and nothin' more
Want it all
Shine on
Shine on
Want it all
Nothin' less and nothin' more
Want it all
Shine on
Shine on

Shine on

And you want it all
Nothin' less and nothin' more
Want it all
Shine on
Shine on
Want it all
Nothin' less and nothin' more
Want it all
Shine on
Shine on

And you want it all
And you want it all

And you want it all
And you want it all
