

# Hush

Crawlers

Say my name  
You don't know it but I'm glad you came  
See the corner of my eye  
You take me by surprise  
I see the passion in your eyes now babe

I can't replay  
You said so much but you said so little  
You hold yourself and you're oh so brittle  
And your finger tips  
Let me read your luscious lips

Do you feel you love me  
I'm alive  
I'm alive  
I'm alive  
Feel me  
Aren't you glad you found me  
I'm alive  
I'm alive  
Oh! You see my broken heart and need my fresh start

Can't count to three  
You look forward to the want that you gave me  
I think my hand is talking  
Leading when I'm walking  
My God my head is talking  
Hush now boy

Hush now boy  
Said so much but you said so little  
You hold yourself and you're oh so brittle  
And your fingertips  
Let me read your luscious lips

Do you feel you love me  
I'm alive  
I'm alive  
I'm alive  
Feel me  
Aren't you glad you found me  
I'm alive  
I'm alive  
Oh! You see my broken heart and need my fresh start

I said please don't go, you love me  
I'm alive  
I'm alive  
I'm alive  
Touch me  
Please just don't forget me  
I'm alive  
I'm alive  
Oh! You see my broken heart and now I'm falling apart
