

Statues

Crawlers

You're the ulcer
That always tends to bleed
You've moved on to hotter stuff
We don't smoke the same weed

The president kills his people
And all the empty rooms are filled
Of all the sleeping people
Who this country killed

Oh, you make me so calm
Let the statues fall
Does it feel, does it feel
Does it feel right, does it?
Does it feel, does it feel
Does it feel right, does it?

Are you a stranger for closed eyes?
Telling us you're innocent
So you can comply?

The president kills his people
And all the empty rooms are filled
Of all the sleeping people
Who this country killed

Oh, you make me so calm
Let the statues fall
Does it feel, does it feel
Does it feel right, does it?
Does it feel, does it feel
Does it feel right, does it?

Take a knee
Show no sympathy
Take a knee
Show no sympathy

Does it feel, does it feel
Does it feel right?
Does it feel, does it feel
Does it feel right?
And does it feel, does it feel
Does it feel right?
And does it feel, does it feel
Does it feel right, does it?

You make me so calm
Let the statues fall
Does it feel, does it feel
Does it feel right?
And does it feel, does it feel
Does it feel right, does it?

You make me so calm
Let the statues fall
Does it feel, does it feel

Does it feel right, does it?
Does it feel, does it feel
Does it feel right, does it?
