

Break Out

Crazy Lixx

Live life like a renegade
Live your life like a rolling stone
Don't care bout the mess you make, cause it's all your own
Won't be around for good
Life is short, it's understood
So live like you want and not the way you should

Cause you've got the freedom
And you're in control
You've got a choice to make
And it's all you need to know

If you wanna break out
Break free
There's a new tomorrow
Where you're all that you can be
Break out
And you'll see
Forget about your troubles
Live the life you're born to live
Break out

All the days that've come and gone
Everything that's been said and done
It don't shape the future and the times to come
Cause it's all up to you
Where you go and what you do
No fated destiny can tell you what will be

Cause you've got the freedom
And you're in control
You've got a choice to make
And it's all you need to know

If you wanna break out
Break free
There's a new tomorrow
Where you're all that you can be
Break out
And you'll see
Forget about your troubles
Live the life you're born to live
If you gonna break out
You gonna break out
Break out
Oh yeah

Cause you've got the freedom
And you're in control
You've got a choice to make
And it's all you need to know

Break out
Break free
There's a new tomorrow
Where you're all that you can be
Break out

And you'll see
Forget about your troubles
Live the life you're born to live
If you wanna break out
Break free
Live the life you're born to live
Break out
And you'll see
Forget about your troubles
Live the life you're born to live
If you gonna break out
Yeah yeah
Break out
And you'll see
Forget about your troubles
Live the life you're born to live
