

## Call to Action

Crazy Lixx

The country's run by a ruthless killer  
We put the power in the hands of a terror regime  
And everybody's living in fear  
Cause the city's got eyes and ears  
And the world around is turning ever faster

Time to give it all you've got  
And show your rebel heart  
And your anarchy will cause a chain reaction  
If you stand down this fight  
You'll never get your prize  
So let's take the chance and heed this call to action

The fires roar in the streets of the city  
And in the eyes of the brave on the barricades, yeah  
We've got the will and the strength to deliver  
It's time to bury the ones we love and burn the rest

'Cause everybody's paying their share  
For the freedom with their blood and tears  
And the world around is slowly paying attention

Time to give it all you've got  
And show your rebel heart  
And your anarchy will cause a chain reaction  
If you stand down this fight  
You'll never get your prize  
So let's take the chance and heed this call to action

Time to give it all you've got  
And show your rebel heart  
And your anarchy will cause a chain reaction  
If you stand down this fight  
You'll never get your prize  
So let's take the chance and heed this call to action

Chain reaction  
Take the chance and heed this call to action  
Chain reaction  
If you stand down this fight  
You'll never get your prize  
So let's take the chance and heed this call to action...
