

Dr Hollywood

Crazy Lixx

You like them TV-stars
With their diamond rings, and their expensive cars
That stuff of magazines
Those looks don't come for free

It takes a whole lot of money to be a Hollywood Hotie
But I know just where to go
There's a place down town where dreams are made
At the tip of blade

Go see the doctor
Dr. Hollywood
Go see the doctor
Dr. Hollywood

You're into newest fads
And all the perfect girls in the commercial ads
The folks on MTV, yeah
Their looks don't come for free

You need to slice and dice to get that new disguise
Make your appointment with Jack the Knife
He's got a place down town where stars are made
At the tip of a blade

Go see the doctor
Dr. Hollywood
Go see the doctor
Dr. Hollywood

And when you've had your share of money and fame
When all the bright lights fade away
Well you know the place, and you know his name
He'll get you back in the game

Go see the doctor
Dr. Hollywood
Go see the doctor
Dr. Hollywood
