

# Eagle

Crazy Lixx

So you lost your way  
In the city lights  
You were led astray  
By the dream that died  
All you ever wanted  
Was to be someone  
In the eye of the storm  
It's hard to hold on

You gotta face your ghosts  
See eye to eye  
You've been blinded so long  
By the neon lights  
Look deep inside you  
There's a place called home  
Reach into your heart  
Carry the fire

Far away in the open wild  
Where the heart of winter lies  
In the land of the midnight sun  
I'm free like an eagle  
Look to the northern lights  
Where the ocean meets the sky  
I'm free like an eagle

When your fortune's up  
And you've had your time  
When the road gets rough  
And the will to survive  
Is the only thing left  
To keep you alive  
Through the dark and cold  
Outside the spotlight

You gotta' lift your head  
Don't bow in shame  
You can take a stand  
You can make a change  
Look deep inside you  
There's truth to be found  
Reach into your heart  
Carry the fire

Far away in the open wild  
Where the heart of winter lies  
In the land of the midnight sun  
I'm free like an eagle  
Look to the northern lights  
Where the ocean meets the sky  
I'm free like an eagle  
Free like an eagle

Far away in the open wild  
Where the heart of winter lies  
In the land of the midnight sun  
I'm free like an eagle

Look to the northern lights  
Where the ocean meets the sky  
Be free like an eagle

Far away in the open wild  
Where the heart of winter lies  
In the land of the midnight sun  
I'm free like an eagle  
Look to the northern lights  
Where the ocean meets the sky  
Be free like an eagle  
Free like an eagle

Far away in the open wild  
Where the heart of winter lies  
In the land of the midnight sun  
I'm free like an eagle  
Look to the northern lights  
Where the ocean meets the sky  
Be free like an eagle
