

Fire It Up

Crazy Lixx

I'm looking at you looking at me
I can tell you got more to see
I'm playing on streaks and you getting the groove
Let me tell you, baby, you got wicked moves

Just looking at you got me looking sparks
Can't wait to get you all alone in the dark
You're the kind of ride I'm itching for

You got it, I need it
So come on, baby

Fire it up
I'm burning
Love is gonna lite it
Love is gonna
Fire it up
Oh baby
You can't fight it
Love is gonna fire it up

You got me feeling like die in the mile
Lets see if you can make it low tonight

All I need is to touch your skin
Take your body, taste your sin
You're the kind of girl who can feel my needs

You got it, I need it
So come on, baby

Fire it up
I'm burning
Love is gonna lite it
Love is gonna
Fire it up
Oh baby
You can't fight it
Love is gonna fire it up

Love is gonna get you
Fire it up
Love is gonna get you

You lit a fuse, now you can't stop
Love is gonna get you, fire it up
You can't defuse it, its gonna pop
Love is gonna get you!

Fire it up
I'm burning
Love is gonna lite it
Love is gonna
Fire it up
Oh baby
You can't fight it
Love is gonna fire it up

Love is gonna get you
Fire it up
You got it, I need it
So come on, baby
Fire it up
Now you can't stop
Love is gonna get you
Fire it up
You can't defuse it, its gonna pop
Love is gonna get you
Fire it up
