

## Girls of the 80's

Crazy Lixx

You're not like any other girl I've known  
Not like the ones with an attitude just for show  
You've got something that I've only seen  
On the cover of a vintage magazine

There's a fire in the night - There's a burning desire  
Ready to ignite - And it drives me so wild  
When you turn on the music and turn off the lights  
Ready for a crazy night

I love it when you're moving like the girls of the 80's  
'Cause you walk and you talk like a woman should  
Girl I've never ever seen you look so good  
When you're moving like the girls of the 80's  
That's when you turn me on

I've seen a hundred other girls go by  
But with you baby there's more than meets the eye  
Working hard to reach the top  
You've got the voice and the looks to back it up

There's a fire in the night  
Out on the wire, out to excite  
Turn on the music and turn off the lights  
Ready for a crazy night

I love it when you're moving like the girls of the 80's  
'Cause you walk and you talk like a woman should  
Girl I've never ever seen you look so good  
When you're moving like the girls of the 80's  
That's when you turn me on

There is a fire out in the night  
Out on the wire, out to excite  
Turn on the music and turn off the lights  
Ready for a crazy night

I love it when you're moving like the girls of the 80's  
'Cause you walk and you talk like a woman should  
Girl I've never ever seen you look so good  
When you're moving like the girls of the 80's  
That's when you turn me on  
That's when you turn me on
