

# It's You

Crazy Lixx

I see an ocean coming, I'm riding on the waves  
Carry me to your shores and wash all over me  
I feel the heat of summer shining through your eyes  
Let's stay forever in your island paradise

It feels like magic when I'm near her  
There's something she's not telling me

Heaven's got an angel missing  
She's right before me, blowing kisses  
Won't somebody tell me what to do  
Cause I think it's you  
Someone must be looking for her  
I finally found a perfect lover  
Should have known it's too good to be true  
Cause I know it's you

Cause I know it's you  
(Cause I know it's you)

It's like a new horizon since you came along  
Baby your love is nothing short of a miracle  
I'm not a true believer, but girl you've got me turned  
One thing I know for sure, you're just not of this world

Heaven's got an angel missing  
She's right before me, blowing kisses  
Won't somebody tell me what to do  
Cause I think it's you  
Someone must be looking for her  
I finally found a perfect lover  
Should have known it's too good to be true  
Cause I know it's you

Should have known it's too good to be true  
Cause I know it's you

Heaven's got an angel missing  
She's right before me, blowing kisses  
Won't somebody tell me what to do  
Cause I know it's you  
Someone must be looking for her  
I finally found a perfect lover  
Should have known it's too good to be true  
Oh it's gotta be you

I finally found a perfect lover  
Should have known it's too good to be true  
Cause I know it's you

It's gotta be you  
Yes I know it's you  
(I finally found a perfect lover)  
(I finally found a perfect lover)
