

Love Don't Live Here Anymore

Crazy Lixx

Won't you give me a sign
You know I tried
To make it right
Won't you say something please
Your head's so high
While I'm on my knees

But what if I said it was over
What if I told you we're through
What if the skies that we look upon were falling
Would it mean nothing to you

Love don't live here anymore
It's a house of cold reminders
Cause there's nobody home
Love don't live here anymore
It's just me and the silence
Cause love don't live here anymore

Can we turn back the time
I need to know
Where we went wrong
You always keep it inside
When you need to fight
You just let it go

What if I said it was over
What if I told you we're through
What if the skies that we look upon were falling
Would I get through to you

Love don't live here anymore
It's a house of cold reminders
Cause there's nobody home
Love don't live here anymore
It's just me and the silence
Cause love don't live here anymore

What if I said it was over (it was over now)
What if I told you we're through
What if the skies that we look upon were falling
Would I get through to you

Love don't live here anymore
It's a house of cold reminders
Cause there's nobody home
Love don't live here anymore
It's just me and the silence
Cause love don't live here anymore
Love don't live here
Anymore
Oh yeah
