

Midnight Rebels

Crazy Lixx

Leather jackets, long hair, and attitude
Wild hearts, baby, breakin' all the rules
Dancing in the shadows of the neon lights
Reckless in Sin City tonight

Sisters get it on, ready for the show
Came to see the band, but they're in for more
Lookin' for a thrill that you won't forget
You ain't seen nothing yet

We only come out in the dark, and when the moon is ridin' high
We're gonna rock this town, and we never say goodnight

We're the Midnight Rebels
We're the freaks and the fools
Livin' on the edge
We're breaking all the rules
We're the Midnight Rebels
Never say die
Just hold your fists up high into the sky
With the Midnight Rebels

Raising all hell down the boulevard
Playing it cool, bangin' real hard
Oh, run baby, run from the temple of blood
Pray for your life to the heavens above

It tastes so right, to do you so wrong
Now you're never ever going home
We're gonna have a bloody party all night long

We're the Midnight Rebels
We're the freaks and the fools
Livin' on the edge
We're breaking all the rules
We're the Midnight Rebels
Never say die
Just hold your fists up high into the sky
With the Midnight Rebels

We're the Midnight Rebels
We're the dead alive
So show your fangs and howl into the night!

We're the Midnight Rebels
We're the freaks and the fools
Livin' on the edge
We're breaking all the rules
We're the Midnight Rebels
Never say die
Just hold your fists up high into the sky
With the Midnight Rebels

With the Midnight
With the Midnight Rebels
With the Midnight...
