

Silent Thunder

Crazy Lixx

Freedom has a price to pay
And evil never sleeps, they say
You're born to win, you're always the defender
When the storm is drawing near
You stand your ground and face your fears
Cause there is no retreat and no surrender

When they've got your back against the wall
When the time has come to heed the country's call

Fly high
Silent thunder
Up to the skies
And the fight beyond the clouds
Fly high
Silent thunder
You're ready to strike
In the dead of the night
Just like a silent thunder
So fly high
Silent thunder

Through the heavens, land and sea
To counterstrike the enemy
Against the odds you always carry on
When the tide is rolling in
A call of duty cries within
It's time to choose to win or lose
Cause this is do or die

And you gotta fly high
Silent thunder
Up to the skies
And the fight beyond the clouds
You gotta gly high
Silent thunder
You're ready to strike
In the dead of the night
Just like a silent thunder

Silent thunder

Fly high
Silent thunder
Up to the skies
And the fight beyond the clouds
You gotta gly high
Silent thunder
You're ready to strike
In the dead of the night
Just like a silent thunder
You're just like a silent thunder
So fly high
Silent thunder
Like a silent thunder

Fly high

Silent thunder
Fly high
Silent thunder
So fly high
Silent thunder
Fly high
Silent thunder...
