

Two Shots At Glory

Crazy Lixx

You really think I don't know what it takes
That I ain't never gonna' catch that brake
I've fucked up, I made mistakes
But I always learned something on the way
You say I'll always be a step behind
Screw you, I still got time
You should've known, I got the fight in me
Gonna' keep on pushin', wait and see

Hold my beer (yeah)
Cause I'm gettin' there

Two shots at glory
I need a second chance
To rewrite the story
And find another way around
Two shots at glory
For the same old song and dance
I don't wanna' close the book
On the road I took
I'm gonna' stay in the race
For two shots at glory

I'm going places, but I ain't there yet
Wrong turns baby, no regrets
I took a tumble on a dead end street
But I brushed it off now I'm back in the seat
I've got a vision, I won't let it fade
Break through the barricades
Another chance for the money shot
I'm cocked and loaded, ready to rock

Watch me son (yeah)
Cause I'm still not done

Two shots at glory
I need a second chance
To rewrite the story
And find another way around
Two shots at glory
For the same old song and dance
I don't wanna' close the book
On the road I took
I'm gonna' stay in the race
For two shots at glory

Hold my beer
Cause I'm gettin' there

Two shots at glory

Two shots at glory
I need a second chance
To rewrite the story
And find another way around
Two shots at glory
For the same old song and dance

I don't wanna' close the book
On the road I took
I'm gonna' stay in the race
For two shots at glory
