

Want It

Crazy Lixx

Yeah I want it, want it, want it that way
Yeah I want it, want it, want it that way
Yeah I want it, want it, want it that way

They say I'm livin' out a childish teenage dream
I'd better shape it up or nothing will become of me, oh no
I don't listen to a single word they say
As long as life good, I'll live it day by day
'Cause I want it, want it, want it that way

Won't you save yourself this moment
And spare yourself the pain
I'll still do it if I want it
So all your talk's in vain
Won't you keep it in, no I don't wanna
Hear those same complaints, no no

I just wanna' do my thing and do it good
When I'll look back 20 years from now
I'll know I did what I could
If I don't make it, well at least
We had some kicks along the way
As long as life's a stage, I'll try my best to play
'Cause I want it, want it, want it that way

Won't you save yourself this moment
And spare yourself the pain
I'll still do it if I want it
So all your talk's in vain
Won't you keep it in, no I don't wanna
Hear those same complaints
I just say that I want it, want it, want it that way
Yeah I want it, want it, want it that way

Won't you save yourself this moment
And spare yourself the pain
I'll still do it if I want it
So all your talk's in vain
Won't you keep it in, no I don't wanna
Hear those same complaints, cause I want it that way
I want it, I want it
Spare yourself the pain
I want it, yeah I want it
So all you talks in vain
I want it, I want it
Whoa yeah!
