

## XIII

Crazy Lixx

Your heart's beating faster, your blood runs cold  
You're haunted by visions, of the stories they told  
There's a masked assailant, and he's out for you!  
When you hear him coming, what you gonna do?

X triple I  
Friday night!  
The sound of chains, the gleam of the blade  
Run for your life!  
X triple I  
Time to die!  
He's in your mind, he's creeping up behind  
There's nowhere to hide, on a Friday night!

You can feel the tension, building up inside  
By the cover of darkness, as the campfire dies!  
He's moving through the shadows - He can smell your fear  
You won't know he's coming, 'till he's there

X triple I  
Friday night!  
The sound of chains, the gleam of the blade  
Run for your life!  
X triple I  
Time to die!  
He's in your mind, he's creeping up behind  
There's nowhere to hide, on a Friday night!

X triple I  
Friday night!  
The sound of chains, the gleam of the blade  
Run for your life!  
X triple I  
Time to die!  
He's in your mind, he's creeping up behind  
There's nowhere to hide, on a Friday night!

X triple I  
Time to die!  
X triple I  
There's nowhere to run, nowhere to hide  
X triple I  
On a Friday night!
