

# Ashes

Crazy Town

Ay!

It never could be anything like  
It never could be anything like  
I'm brought up from the ashes

The wheels keep spinnin'  
We gonna kill it  
This is monster  
And i got this feeling  
Cold blooded after taste is coming up  
It's nothing nice  
We up all night  
Gonna get it right  
After everything I've done before  
We keep it reelin'  
So put your hands up to the ceilin'  
That mass appealin'  
These wretched beats that keep concealin'  
The underline, the get it right, gonna let it ride  
Gonna hit it till we overflow

Oh!

Seen it all around the world  
Never gonna live it down  
Almost let it fall away  
Now we're brought up from the ashes

Oh!

Seen it all around the world  
Never gonna live it down  
Almost let it fall away  
Now we're brought up from the ashes

C-check this out!

Seen it all around the world  
Look it look it that

Haters be countin' me out  
Talkin' and runnin' their mouths  
Enemies callin' me out  
Reaching and pulling me down  
Tell me you've figured me out  
Tell me i'm stuck though i'm calling you out  
Half of the reason I'm back for the season is giving you something to stick  
in your mouth  
Resurrection, this mic is my protection  
This gun is decoration  
And I've got a whole collection  
The devil's real  
I've seen him before, he gave me a deal  
Never again will i give him my life  
Now come to my throne and kneel

Oh!

Seen it all around the world  
Never gonna live it down  
Almost let it fall away

Now we're brought up from the ashes

Oh!

Seen it all around the world

Never gonna live it down

Almost let it fall away

Now we're brought up from the ashes

Oh

(Resurrection, this mic is my protection)

Oh

(You've figured me out. Half of the reason I'm back for the season is giving you something to stick in your mouth.)

Oh!

Seen it all around the world

Never gonna live it down

Almost let it fall away

Now we're brought up from the ashes

Oh!

Seen it all around the world

Never gonna live it down

Almost let it fall away

Now we're brought up from the ashes
