

Safe And Sound

Creep Show

I look
Look up at the sky
See how the daylight gives way to dusk
That's what you see in my eyes
Now look closer as the twilight
Bows before the night
Billions of stars across oceans of time
Joined with the moon to shine their sliver light
So I can make my way
To another day

Baby
Don't look so sad
I've always been a fighter, you know
And I'll be alright

I've got a road I must travel
And I won't be lookin' back
I am a part of somethin' much bigger
And I can't be thrown off track
It's a brand new day
It's my time to play

I can feel the transformation
Takin' over profound sensations
I'm exactly where I was meant to be
I must go where I am going
The seed was planted then I was just growin'
I'm safe and sound in the arms of my destiny
Safe and sound
In the arms of my destiny

Darlin'
Look up at the sky
See how the daylight gives way to dusk
That's what you see in my eyes
Now look closer as the twilight
Bows before the night
Billions of stars across oceans of time
Joined with the moon to shine their sliver light
So I can make my way
To another day
