

Allergies

Creper

Hey!

I've been out like a light since last night
They played our song and I danced there all alone
A tragic sight
Know I never ever saw this coming
Friday, you said you felt nothing
Woah oh oh, but it's alright

So think of all those years you had to leave behind

Call home, call home
Find a payphone
Leave me alone
Call home, call home
Find a payphone
Leave me alone
Leave me alone

Holding hands around shopping centres
Your hair pulled through his fingers
Woah oh oh, another life
I don't even think about it much now
Time lapses. World collapses
Woah oh oh, another time

So just drop me off or run me down in your car

Call home, call home
Find a payphone
Leave me alone
Call home, call home
Find a payphone
Leave me alone
Leave me alone

And in your room, lying down for days
A new tattoo to mark that cold and awkward place

I don't know how I'm meant to feel these days
I've been ill since the first I saw your face
Fairy lights up above your bed
I got sick and the doctors note it read:
Hey, I'm allergic to you

I don't know how I'm meant to feel these days
I've been ill since the first I saw your face
Fairy lights up above your bed
I got sick and the doctors note it read:
Hey, I'm allergic to you
